

Overnight at the Post

- Teachers please note that you are fully responsible for your students including discipline
- Please don't leave it up to the educator to maintain discipline during a program
- Each student should be supervised at all times
- Respect and common courtesy is very important and is your responsibility to enforce
- We ask that the students don't leave the barracks after 10pm unless under supervision. After 10pm please use the outhouses located in the barracks
- If the Wasa Hotel bathrooms are used, please ensure that they look clean after use
- No child should be running in and out of building or climbing on any equipment. Of course it its 1898 and children are seen not heard
- It is in our best interest to have a safe and clean environment and to achieve it teachers/supervisors and students will have to help maintain it
- We ask that all pots, pans, bowls etc are placed back in the same fashion as before
- A supply inventory is provided. Have a supervisor and a few students help count the supplies before you depart. This list must be signed off on and handed into the front desk.
- Please check under the beds in Barracks and the Sergeants Mess for any personal items and garbage. We don't want any hungry visitors!

Thanks for staying at Fort Steele Heritage Town
Hope to see you again!
